Lower Ranking of Indian Football

†439. SHRI JHUMUK LAL BHENDIA : Will the Minister of YOUTH AFFAIRS AND SPORTS be pleased to state:

(a) the reasons for poor performance of India in football and for which India ranks nowhere in the world in football, whereas the climate and geographical situation is conducive for this sport;

(b) whether Government are formulating any fresh scheme for generating attraction, interest and motivation for football among the Indian youths; and

(c) if so, the details thereof and if not, the reasons therefoe?

THE MINISTER OF STATE IN THE MINISTRY OF YOUTH AFFAIRS AND SPORTS (SHRI P. RADHAKRISHNAN): (a) As per current FIFA ranking, India is placed at 123rd rank among 203 football playing nations. As per information received from All India Football Federation (AIFF), FIFA ranking depends on the number of international matches declared by FIFA as International "A" match, a national team plays in a competitive manner from time to time. Indian team's international exposure is not sufficient and that is why ranking is low.

†Original notice of the question was received in Hindi.

(b) It is for AIFF to prepare schemes for promotion of the game of football. AIFF has stated that a long-term project for 2010 World Cup will be submitted by it to FIFA to have professional training exposure and talent spotting.

(c) Does not arise.
